The April 16 meeting will be held in Sacramento.

At the meeting Friday, the state agency heard a full report on a study of the Sugar Pine Point project and the delay was called to permit committees to confer with property owners in the area.

The project involves 2200 acres of land on the northern edge of Meeks Bay and includes a mile and a half of beach with a proposed 1,000 campsites and parking for 300 cars.

## Burning Permits Needed On April 1

Written burning permits are required after April 1 for debris burning, blasting and incinerators in rural areas according to a statement today by Tahoe Forest Supervisor Hank Branagh and Acting State Forest Ranger Mike Brock.

Despite heavy rains earlier in the year, recent dry windy weather has dried forest fuels and several small fires have recently escaped from debris burning operations.

Other requirements in effect April 1 include spark arresters for all gasoline or diesel-powered equipment including trail bikes when operated off roads. Industrial equipment must have fire tools available including shovels, axes and fire extinguishers. Clearings are required around stationary engines and welding operations.

Burning permits are available from California Division of Forestry offices and for areas inside national forest boundaries, from Ranger Stations at Big Bend, Camptonville, Downieville, Foresthill, Nevada City, Sierraville and Truckee. U. S. forest service offices are open 8 a. m. to 5 p. m. Monday through Friday.

Bean's attorney asked for a postponment on grounds that "substantial constitutional issues" give him a good chance to overturn the death penalty either in state or federal courts. Leslie Fry represents Bean.

## Work Starts Soon On New Underpass On Floriston Road

After many months of negotiating, work is expected to start in the near future on a new railroad underpass at Floriston to relieve a difficult situation.

Supervisor H. G. Loehr announced that engineers are now surveying the project and that finances have been allocated by the three agencies involved. Work is scheduled for completion early this summer, Loehr was advised.

The project is financed jointly by the County of Nevada, the State of California and the Southern Pacific Company. It will cost approximately $60,000.

The present underpass, built many years ago when the horse and buggy provided the principal mode of transportation, is no longer adequate for modern vehicles and particularly trucks which make deliveries into the community.

A recent example of the inadequacy of the tunnel was when a fire truck from Verdi, summoned to the area, was unable to negotiate the narrow passage. Had it not been for the fact that the Truckee department has a narrow fire truck, it is possible many homes there would have been destroyed by the fire.

## Vandals Damage Tom's TV Supplies

Extensive damage was done to equipment at Tom's TV supply lot Monday night by vicious vandals.

A truck on the property was wrecked, the windshield and lights broken out and the building in which is stored a large quantity of valuable electrical equipment was broken into after a trap door on the roof was ripped open.

Prior to breaking open the trap door, the vandals had beaten a hole in one corner of the building with an iron bar. Several aerials were broken and other damage running into hundreds of dollars was caused in the unprovoked act.

The owner is Tom Kirby who has notified the sheriff's office in hopes of apprehending the culprits responsible.

Sergeant Roy Waters of the sheriff's department said two suspects were seen near the scene and they will be questioned.

### SUPERVISORS STUDY POINT SYSTEM FOR ROADS IN COUNTY

NEVADA CITY—Nevada County supervisors between now and April 1 will continue studies of the Shasta County system for road standards.

The Shasta point system was introduced by Supervisor Neil Hennessy and Road Commissioner Robert Graham six weeks ago but the supervisors asked for further study time.

When Hennessy introduced the subject last week Supervisor Henry Loehr said he did not understand it.

Hennessy explained that under the Shasta plan such factors as population density, anticipated use, present traffic volume, road frontage and other factors each has a number. After a study of the road and a determination of which factors applied, the key numbers are added and the road standards established.

Supervisor Loehr and Bret Bennallack noted that some factors went down to only requiring a double seal coat which the officials described as creating no road at all. Bennallack said such a road would need frequent repairs.

Hennessy said the adoption of the Shasta program would relieve the county of a considerable burden and in many cases put the road situation in the hands of subdividers.

### VISITORS IN DISTRICT HAVE NEW BABY BOY

Sportsmen are polishing boats, tuning up motors and getting their equipment in shape for the big day. The fish are reported in good condition as a result of the abundance of feed and recent mild weather.

The limit is five trout but not more than 10 pounds and one trout except during the general season in adjacent areas, when the limit for the latter season applies. Irrespective of weight, three trout may be taken during the open season. Fishing is permitted from one hour before sunup to one hour after sundown.

No fish may be used for bait or possessed for use as bait in Donner, Fallen Leaf or Lake Tahoe except minnows and suckers which are taken directly from the lake where they are used or possessed.

Donner and Lake Tahoe, which is open the year round, are the only lakes or streams open on April 3, the balance of the area, except posted streams and lake open May 1.

Mrs. Ernst, 46, was asleep in the sleeping compartment and was injured by the mishap.

Mrs. Norma Pruett, 37, Waterford, was the first car on the scene. She stopped to lend assistance to Ernst and his wife, when a second truck, driven by Norman Battalion, 43, Freemont came over the crest. He attempted to avoid the trailer of the Ernst truck which was protruding into the highway and crashed into Mrs. Pruett's car, seriously injuring her. His truck got out of control and also overturned.

The second car, which officers said, had been driven all the way from Verdi to Floriston in the wrong lane of the freeway crashed into the wreckage, but the driver, Ioannis Filipteos, 30, South San Francisco, was not injured. He was cited for being in the wrong lane.

With the exception of Filipteos, all were taken to the Tahoe Forest Hospital, Mrs. Pruett being the most seriously injured.

All drivers were cited with the exception of Mrs. Pruett.

In charge of arrangements for the affair are Gene Cline and George Sayre and they have announced that cocktails will be served at 7 p. m. with dinner following at 8 p. m.

Motion pictures pertaining to conservative use of natural resources and fire prevention were shown by the district ranger, who also judged the displays made by pupils of the school.

Judged the most outstanding was the entry of the kindergarten, first and second grades. Their theme was "Woodland Manners" and depicted a lifelike scene in third dimension of campers in the forest with animals, flowers and trees. The Big Bend Ranger Station was shown in the background. "Wildlife" was the entry of the third grade. A large mural in crayon of green hills and forest animals was judged most artistic.

Fourth grade pupils displayed a group of drawings which was judged most significant. The theme was "Keep California Green and Golden" and signified use of fire fighting equipment.

"Timber Conservation" was presented by the sixth grade in the form of a miniature lumber mill with a replica of Paul Bunyan standing at the side of the display. This was judged most applicable to forest products. Mr. Rex Anderson, principal, and Mrs. Richard Quist, teacher of the primary grades, were instrumental in imparting to the pupils the meaning of conservation in the forests which resulted in the excellent displays.

Leonardo da Vinci is most noted for his painting, the *Mona Lisa*. But did you know that he was also an architect and engineer? In fact, he even designed an airplane and a submarine. Another man of many talents was Alexander Graham Bell. For instance, he invented a system of air conditioning and a method of changing salt water to fresh. He even proposed an early version of today's iron lung. But like da Vinci, Bell is most noted for one thing—the invention of the telephone 89 years ago this month. Sure, a lot of changes have been made in telephones since 1876—and you'll see many more in the years ahead. But there'll always be the same good reason for every telephone change: to make your phone service even better than it was before.

Children say some pretty cute things. Here's one I think you'll enjoy as much as I did. A 2½-year-old girl wanted to talk long distance with her grandma. So she took her mother by the hand, led her to the phone, put her fingers on the dial and said, "You wind it, and I'll talk." I guess we're never too young to know how much fun it is to keep in touch by long distance.

Filed your income tax return yet? If not and you have any question, the Internal Revenue Service advises that you can get the answer by phone. If there's an IRS office near you, you'll find their number listed in your phone book under the heading: "United States Government Treasury Department." Call them. They'll be glad to help.

# County Wide Census To Aid Road Fund

AUBURN—Details of a county-wide census program expected to gain approximately $275,000 in additional road funds for Placer County were presented to the board of supervisors by County Executive Officer J. E. Williams.

Preliminary estimates indicate that the population of the county has jumped from roughly 60,000 in the 1960 census to 74,000-75,000 today.

It is estimated that approximately 4,500 new housing units have been constructed in the county in the last five years.

Moving to take advantage of a new change in the law affecting the split of the motor vehicle "in lieu" tax to counties, the county executive officer said Placer could pick up as much as $5 per year for each new county resident for the next five years.

County employees and local volunteers will collect the raw data and send to the state for analysis and projection.

According to Williams, the county will conduct a house to house census in the Tahoe Basin because of the area's high seasonality. The major census activity in the western portion of the county will be a new housing unit census. Another element will be added units in trailer homes and construction workers.

Williams told the board that Supervisor Briner would head a volunteer team of 20 enumerators in making the Tahoe count.

In addition to the Tahoe count and picking up of the new housing units other factors include: current school enrollments; institutional residents; and, new electric customers.

The count will cover the cities as well as the unincorporated portions of the county. Colfax and Lincoln statistics will be collected by the county.

State department of finance population experts will do the work for Roseville, Rocklin and Auburn.

Cost to the county is expected to be around $1,000.

The first photographs of the moon were taken in 1839.

## Rabbits As Easter Gifts Ruled Illegal

SACRAMENTO — (CNS) — The state assembly, with candy Easter rabbits on their desks, has approved a bill to outlaw artificial coloring of chickens or rabbits or the free gifts of the creatures.

Assemblyman Philip L. Soto, D-La Puente, author of AB178, called it the "chick bill." A similar measure in 1963 was vetoed by Governor Edmund G. Brown for fear it would interfere with hatchery operations of marking birds.

Assemblyman Ray E. Johnson, R-Chico, questioned whether the bill would permit feed stores to give away white leghorn roosters, otherwise valueless. Soto agreed to amend the bill to permit this practice to continue. The bill now goes to the senate.

Interlibrary loan of books was a common medieval practice.

St. Patrick's Day was observed by many in various ways but Ron and Barbara Donley of Sparks will now celebrate doubly—they became the parents of a baby daughter, Kenna Lyn, on St. Patrick's Day at St. Mary's Hospital in Reno.

Maternal grandmother is Barbara Newell of Sparks, former Kings Beach resident, who regards St. Patrick's Day seriously and calls the wee Colleen "Patty". Nothing like an interfering grandmother, so says she.

* * *

Back home to Brockway is Bernita Jones who spent several days at St. Mary's Hospital in Reno undergoing treatment. Visited Bernita along with Beverly Newell but didn't get to see the new baby or its mother. Bernita is ready to resume work and feeling great.

* * *

Was Reno day for several Tahoites. Sail hello to Willis Mizner of Kings Beach, a hi to Ray Plunkett and H. E. "Mac" McCoskey of Crystal Bay in town on business, and a chat with Barney and Eileen Wilen of Kings Beach. The Wilens enjoyed dinner at the Nugget and were off on a shopping trip. Incidentally, Kings Beach attorney Max Early is real lucky to have Eileen Wilen as his new secretary.

* * *

Stopptd in Sparks for coffee at the bowling alley where we found Jack Neugebauer presiding. A mighty fine operation and was happy to say hello to Dr. and Mrs. Tapia of Truckee who bowl there on Sunday evenings.

* * *

Jim Kelly of the Tahoe and Reno Nugget is a busy man these days. Remodeling the Reno spot which is closed until renovation is completed. Clearing the way for the workmen are Claire Eller, Adam Miltonberger, Bill Greenrod, Eddie Nelson, Charles Fellows, Roy Roberts with Jim overseeing the operation.

It will probably be a month before reopening.

The Women's Club of North Tahoe enjoyed their annual Hat Party on the 16th and many stayed on to greet St. Patrick's Day. The decorations for the party were in keeping of St. Patrick's Day and most attractive. Entertaining the guests were Don Vance, Dan Rose, J. D. Long and Red Waddell who made up a marvelous quartet. The quartet also doubled as judges for the hats.

Fern Miller of Reno won the prize for the funniest hat, Pat Coskey won the most beautiful award and Jane Tenneson the most original. Pat Coskey was especially proud of her hat as her artist husband, Ted, designed it.

Our thanks to the Women's Club and president, Eleanor Egan, for the invitation to the party.

* * *

St. Patrick's Day was observed with a luncheon shower at the home of Pat Crow of Crystal Bay with Paula Gurney and Barbara Kindred assisting Pat, for Anna Burghardt of Tahoe Vista and Genevieve Brockelsby and Janet Ellison of Kings Beach.

Enjoying a delicious luncheon with decorations in keeping with the day were Lorraine Briscoe, Darlene Bitler, Mary Gardella, Millicent Quartley, Helen Chanda, June Wright, Ann Hansen, Mary Clarey, Madelyn Scott, Marilyn Shaff, Alice McDonald, Rita Weiss and coming to join the festivities was Troy Wainscoat of Reno.

* * *

Lunch with Marjorie da Costa and Ella Edwards of Reno. Both gals are active in the American Cancer Society and a drive starts soon. Volunteers are needed and representation on the North Shore especially. In view of the marvelous work Inez Jordan has done for the Heart Fund, Ella, who is secretary for the Heart Fund and a director for cancer, wishes another angel would appear and do as much for the Cancer Society as Inez did for the Heart Fund. Any volunteers? Call Marjorie at the American Cancer Society in Reno if you wish to help or have any suggestions.

* * *

Pearl Draney—who is busier on the North Shore than this gal?—had as her guests at the Lydia Circle's home cooked luncheon at the Kings Beach Methodist Community Church, Dorthia Whitley, Pearl Kientz, Louise Walter, Winnie Hall, Mildred Ricks, Eleanor Egan and Deede McKinney. Arleen Reynolds was chairman and the food was superb.

* * *

Why has Carl Harried been hiding his exceptional musical ability? He entertained at the WSCS Senior Citizens Day program in Kings Beach much to the delight of his audience. With the exception of hearing Marlene Dietrich play a musical saw, we know of no one else displaying this unique ability. Carl also plays banjo and the violin.

Wonder why Carl Ravazza hasn't signed him up for an appearance at the Crystal Bay Club?

* * *

Incidentally, the Senior Citizens would like someone to organize the group. Only requirement for joining is a sixtieth birthday, and a meeting place for games and entertainment.

* * *

The Knitter's Klub had a marvelous time at their weekly meeting since it was Terry Baker's birthday, March 17th, and it was celebrated with champagne and shamrock-decorated cake as well as knitting. The party was at the home of Betty Dollar at Incline Village and enjoying in wishing Terry a happy birthday were Velda Farris, Judy Bardeschet, Lorraine Murphy, Nancy Mitchell, Eloise Dumond and Terry Baker.

Next week Velda is hostess at her Incline Village home. Happy birthday Terry.

Don't forget to make reservations at the Chataux for the Fire Sirens card-dessert party on March 31, 2 p. m., donation $1.25 per person. Hildegard Willmann is chairman. Call the Chataux to insure your table. This is a benefit for the fire department to help equip the fire house of some item not included in the yearly budget. Previous equipment which was purchased by the Fire Sirens were chairs and a mimeograph machine.

The April meeting is scheduled at the home of Paula Gurney.

* * *

Peter Paxton of Incline Village is making a trip to Beverly Hills and Palm Springs in connection with his Tahoe Racquet Club. He anticipates a May 15th opening, weather permitting the paving of the six tennis courts. A health club and gym will be run in conjunction with the tennis club. Charter memberships are open to only one hundred persons and after that, double go the memberships!

* * *

The $500 mark was surpassed in the Heart Fund Drive according to Inez Jordan who was chairman. Congratulations to Inez and her workers and all who so generously contributed to the cause.

* * *

Jimmy Hume of Incline Beach flew down to Palm Springs and thence on to Mexico to join his mother and her husband, Florence and Harold Murphy at their hacienda. After a short vacation, Jimmy will return to Los Angeles where he will be joined by wife, Emmajean, for the return to Tahoe.

* * *

Odd how one hears from friends. Yvonne McCoy of Crystal Shores received a letter from longtime friend, Mrs. Charles (Elsie) Fulton of Wasco, Oregon, after she returned home from a boat trip to Hong Kong. Seems she met a friend of Yvonne's aboard ship who was from the North Shore who was operating a beauty shop, Jetta Steward. Yvonne hadn't heard from Elsie for some time and this prompted her to resume her correspondence.

* * *

Jack and Darlene Knorpp are back at Crystal Shores after a trip to the bay area. Jack was on a research project for U. S. Plywood. He advises that Crystal Terrace construction will start soon on the first of 24 2-bedroom units.

Leo Davis has also joined the staff of Weldwood Structures. He is an Incline resident.

* * *

Laurie Miller of Incline Village has accepted a position with Rod Campbell and Bill Hallen in their realty office at Incline Village.

* * *

Art and Gwen Wood of Incline Village flew to Las Vegas over the weekend and on to Scottsdale where they were the guests of Mr. and Mrs. Lloyd Miller.

* * *

Our deep sympathy to Louise Coleman of Crystal Shores who lost her son, George, in a car accident in San Jose. George was a student at San Jose State College and was only 23 years old.

* * *

Don and Ethel Shaver and children, Joni and Juli, of Tahoe City spent a fun week vacationing at Disneyland, Marineland, Knotts Berry Farm, and the Wax Museum.

## Wildlife Money Is Urged By Johnson

WASHINGTON, D. C.—Congressman Harold T. (Bizz) Johnson of the second, mountain-valley counties, district has urged congress to appropriate $1,112,000 for federal fish and wildlife programs in the 19 counties he represents.

"These programs," Congressman Johnson points out, "will contribute to the general economy of the area and public enjoyment of outdoor life.

"Nationally the program I support will add to the complex of recreation and conservation services and facilities needed all over the country."

## Loehr Raps Service By County Agency

Truckee is a part of Nevada County and is entitled to the same standard of service and courtesies extended other portions of the county.

This, in substance, was the trend of a series of comments by Supervisor H. G. Loehr at last week's meeting of the board of supervisors in a discussion of additional personnel for the county probation department.

The rather sharp comments came when Probation Officer Mike Conidaris, again sought supervisorial comment for qualifying for additional money.

A short time before the supervisors had appropriated $6,800 from the unappropriated reserve to finance care of wards for the balance of the year, a report indicating increasing costs. Conidaris asked that a female supervisor be employed at a salary of $436 monthly to supervise children removed from their homes and for whom the probation department is responsible. The board was reluctant to proceed.

Loehr declared that Truckee is not receiving service from the probation department and added that parents in this end of the county had received letters to report their boy within ten days and after making the trip to Nevada City were advised that a hearing would be held in 10 days or so.

He said that something was wrong when the probation department personnel could not get out of their office and come to Truckee. He said he had no complaint with Conidaris, but would ask for personnel who would do the job with equal service for all parts of the county.

## Library At Tahoe Scheduled To Be Opened On Mon.

TAHOE CITY—Monday, March 29th will be opening day for the new library facilities for elementary students of the Tahoe Lake School, it was announced this week by Pauline Keehn, chairman of the library committee of the Tahoe Lake PTA. The library is a joint effort of the PTA and the school and will offer students the facilities of a 5,000-book library. More than 2,000 volumes will be on the fiction shelves and there will be more than 3,000 non-fiction and encyclopedic reference works.

Special features of the library will be a Jimmy Heuga sports shelf, an Ethel Joslin Vernon poetry corner and a special "antique" book section.

This library has been a long term project of the PTA since its start several years ago under the direction of the then president of the PTA, Max Hoff. Mrs. Keehn has been the chairman of the project since its started and has worked with great effort on the job and the number of books was given a great boost last fall when Mazie Carnell headed a community book drive.

Since January 8th of this year when new space was given to the library, by the school officials, a large group of volunteers have worked five days a week from 9 a. m. to 3 p. m. cataloging and shelving the books.

The library will be open to students on a three-day week basis, Mondays, Wednesdays and Fridays until all the books are catalogued when the facility will be on a five day week basis.

## Cushing Reports On Counterfeit Tickets

SQUAW VALLEY — Alex Cushing, resort owner, has complained to sheriff's deputies that tickets for his ski lifts are being forged and sold at reduced rates.

Sheriff William Scott said tickets are being duplicated but are on different color.

The tickets sell for $6.50 and provide access to the lifts during the day sold.

## Nicholas Stone To Wed Utah Miss In April 16 Ceremony

Mr. and Mrs. Harrison A. Miller of Logan, Utah, have announced the engagement and forthcoming marriage of their daughter, Linda to Barton Nicholas Stone, son of Nelson Stone of the U. S. Forest Service in Truckee.

April 16 has been set by the couple for their nuptials.

Miss Miller is a graduate of the Bear River, Utah, High School and Seminary, where she was on the Bearfax staff, a drill master in the Pep Club and a member of the A Cappella Choir.

She is a junior at Utah State University where she is majoring in psychology, a member of the Buzzer staff and a pledge of Alpha Chi Omega sorority.

Stone graduated from the Tahoe Truckee High School, studied for two years at Sierra College at Rocklin and has attended Utah State University for the past two years where he is a member of the college varsity ski team.

## SNOW CLEARANCE BY STATE UNDER STUDY

The state senate adopted SR 69, Lunardi, which asks the department of public works to conduct feasibility studies relating to clearing roads of snow in areas adjacent to Interstate Highway 80 in Placer and Nevada counties to provide access to snow play areas.

Lunardi said there is increasing concern about the number of persons engaged in "snow plan" activity.

"These persons come from adjacent urban areas to see and participate in unorganized play in the snow without formal equipment or facilities and cause problems for commercial establishments by ruining snow surfaces for skiing and other formal winter sports," he stated.

He said Placer County can secure permission for the use of other lands adjoining the freeway for snow play purposes.

### KEELINGS AT DONNER

the dividing strip on Interstate 80.

Buddy Lee Leggett, 22, a sailor stationed at the Alameda Naval Air Base, apparently lost control of the car and as it skidded, Joe A. Belloni, 24, another sailor from Alameda, Sharon Gray, 20, San Leandro and Kathy Ringer, 20, Alameda, were ejected into the rocks.

The servicemen were taken to the Stead Air Force Base Hospital and the two women to Washoe Medical Center.

### PICKUP HITS CAR

William Philpott, 36, Hayward, was cited for excessive speed and taken to the Washoe Medical Center in Reno after his pickup careened on the freeway, eight miles east of here Sunday evening and crashed into a car driven by Norman E. Curto, 28, Yuba City.

A Reno ambulance, passing the scene at the time, took the injured man to Reno before the highway patrol arrived. Mr. and Mrs. Curto were not injured but their small car was badly damaged.

Witnesses said the Philpott pickup skidded nearly 200 yards before it careened into the smaller vehicle forcing the latter into the bank.

**Out of Hospital—**

Mrs. Norma Highfill returned home Sunday after spending 18 days in Moffitt Hospital in San Francisco. She is much improved in health.

## Placer Gives Okeh To Sewage Plans

AUBURN—A $17.2 million waste disposal plant and system to combat the growing pollution problem at Lake Tahoe's north shore was approved by the Placer County Board of Supervisors.

The board took steps to seek federal assistance to finance the project by calling a meeting for 2 p. m. today at Tahoe City Community Hall with regional groups, including utilities, health departments and others.

The project would bring waste material to the vicinity of Tahoe City, then carry it via a 17-mile outfall line to Juniper Flats where, after treatment, it would be pumped into Dry Lake in Nevada County.

Harvey F. Ludwig, president of Engineering Science, Inc., the firm retained by the county and Fleischmann Foundation, outlined the plan.

Supervisor William S. Briner of Tahoe City said Rep. Harold T. Johnson, Roseville, saw the report last week and told him he would push for the required federal aid "as soon as all interested parties agree" to the plan.

## CONTEST WINNERS ANNOUNCED BY CLUB

## WEAVERVILLE FINDS INCORPORATION O.K.

Weaverville in Trinity County, which like Truckee-Donner is taking steps to incorporate, has been advised that incorporation is financially feasible without a general property tax. This was the finding of a fact finding committee on incorporation.

The committee found, according to the report, that anticipated revenues resulting from incorporation as well as a tentative city budget showed that a surplus of $16,798 would result.

The report said that the estimates did not include the potential revenue from a 4 per cent hotel-motel tax and that other income estimates were conservative.
